Low Prices.

THE MONEY SAVED BY OUR NET PRICE LIST.

As we have in the two preceding years, issued a net price list, thereby giving our patrons the benefit of a large amount of money which it costs to get out a fine illustrated catalogue; and as our plan has been so heartily approved by the many thousands of people who sent orders, we will do so again this season.

We thank all for their patronage and many kind words of praise for our plants.

THE QUALITY OF OUR STOCK STRICTLY THE BEST.

Any who feared from our low prices that our stock might be inferior, were agreeably surprised to find that it was of the finest grade, and could not be excelled. This was shown us by the numerous orders received from the same people, and the many meritorious commendations we have from them. Our plants this season are finer than ever.

THE SIZE OF OUR STOCK IMMENSE.

We have millions of plants on hand this season embracing only the best and most valuable varieties, such as we know will please all who receive them.

SEND IN YOUR ORDERS EARLY.

As our low prices bring us thousands and thousands of orders, which are filled in the order they are received.

REMEMBER THE NEW LOW EXPRESS RATE. You will bear in mind that the rate on plants is 20 per cent. less than the regular merchandise rate.

OUR ROSES ARE ALL ON THEIR OWN ROOTS.

Yours sincerely,

The National Plant Company,

Ever Blooming Roses of Special Merit.

OUR BEAUTIFUL NEW COLEUS.

Coleus will give more pleasure at less cost than any other plant. Their varied tints of crimson, gold, bronze and green, and richly blotched, veined or margined, produce a brilliancy of coloring unequalled. Our list includes all the best standard kinds, such as Louise Beck, rich maroon; Gem City, golden-yellow spotted carmine; Golden Verschaffelti, bright golden yellow; Firebrand, fiery red; Yeddo, yellow blotched with green; Clouded Gem, crimson and cream with green edge; Progress, mottled red, green and bronze; Mme. Mageau, wine color edged with gold and green; Octoroon, green and gold with bright red shading; Petit Robert, maroon cut and margined yellow and green; Brightness, vermillion blotched with chocolate and green; Retta Kirkpatrick, bright green, yellow center; Setting Sun, crimson with golden edge; Verschaffelti, rich velvety crimson, the finest of all dark varieties; Rag Carpet, carmine edged chocolate red; Golden Bedder, bright golden yellow. Africa, Black. 30 cents per dozen, \$2.00 per 100.

We call special attention to **HETHERANTHE**, the best of all bedding Geraniums. Foliage strong and striking, and of most perfect habit. Flower is a bright vermillion, of most pleasing shade, trusses exceptionally large and fine. Excellent for beds or pot. Try a bed of these. They will delight you.

Also Emile DeGirardin, the fine pink Geranium; L. Contable, beautiful rose color; White Swan, spotless white, and Mountain of Snow and Madem Salleroy, the two leading silver leafed Geraniums. 40 cents per dozen, \$3.00 per 100.

ALTERNANTHERA.

Alternantheras are the best plants used for "carpet-bedding," massing or ribbon line planting or general bedding. Their unique form and tints, and the uniform manner in which they always grow, make them unequalled for fine bedding work, and a garden is incomplete without their finishing touches. We grow them in immense quantities, and have both the red and yellow. 30 cents per dozen, \$2.00 per 100.

PALMS.

Kentia Fosteriana—The Kentias are among the best of the palms for general cultivation, being very free from disease of any kind. This variety is graceful in habit, with bright green foliage, and as a decorative plant for the window, dinner table or conservatory, it scarcely has an equal. Price 25 cents each.

Kentia Balmoreana—This is sometimes called the "Curly Palm," and is recognized as among the best for all purposes, being capable of standing more ill-usage, perhaps, than any other. The leaves have a tendency to curl as the plant grows older, hence its popular title of "Curly Palm." Price 25 cents each.

Filifera Palm—(Washington Filifera). It has elegant dark green fan-shaped leaves, from which

hang thread-like filaments. Price 15 cents each. The plant is a compact grower, well adapted to pot culture.

Latania Barbonica—The well-known favorite Fan Palm, beautiful in all the stages of growth. No plant is more easily grown, and none more tenacious of life, enduring alike the dust, the cold and heat from open windows and gas-heated air of our dwellings. Price 15 cents each.

Phoenix Reclinata—This is one of the most exquisitely graceful among palms. Its wide-spreading gracefully-arching, fern-like leaves are elegant and effective for apartment decoration. It will stand much neglect without injury; fine for vases. Price 15 cents each.

When ordered by express, larger plants will be sent than can be forwarded through the mails.
All plants, either by mail or express, strictly first-class.

You will readily see that if we sent out a fine illustrated catalogue, which is very expensive in itself, also taking two or three cents postage, our patrons would have to pay for same. We therefore send out this net list, giving our customers the benefit of what we save thereby. both in low price and extra fine quality of stock.

FINE FERNS.

No collection of plants is complete without Ferns. The selection we offer embraces the best varieties of this beautiful class of plants, whose diversity and gracefulness of foliage make them peculiarly fitted to combine with other fine plants and flowers.

The popularity of ferns has increased wonderfully in the past few years, and they are now indispensable in all choice floral decorations, and are especially valued for ferneries for room and table decoration.

Where there is moisture and shade most of the varieties succeed well when planted out-of-doors; they delight in a light soil mixed with sand and peat or leaf mould; good drainage must be provided, as stagnant water is fatal to success. Price 10 cents each.

Sword Fern,
Pteris Plumosa,

Pteris Serrulata,
Pteris Cretica,

Pteris Tremula,
Pteris hastata adianthoides.

Sanseveria Zealanica.

A NEW DECORATIVE PLANT OF GREAT BEAUTY
AND VALUE.

A beautiful plant, splendidly adapted for the decoration of drawing-rooms and halls, as it stands drouth and dust with impunity. A plant which should be abundantly grown for positions out of the reach of sunlight, where other plants will not thrive. When you consider that it can be placed in any position in any room, and do well, its great usefulness is at once apparent. It has a singular beauty for decorative purposes, which other plants do not possess, and is useful both winter and summer. It is difficult to find a more unique or ornamental plant than this. Good size plants, 10 cents, extra large, 15 cents.

We would recommend to our customers in one vicinity to club together and order by express. Have the goods for all shipped in one box, and on receipt distribute to each person ordering. This will save a great amount in express charges, making the cost nominal to each one.

Kindly inform your friends of our generous offer this year, and send in their names, on receipt of which we will be pleased to mail them a copy of this list.
